### FISCAL ANALYSIS

#### Assumptions:

1. HB 454 requires all manufactures of products containing Bisphenol A that will be sold or distributed in Montana to notify all retailers of the product contacts not less than 90 days before July 1, 2010.
2. Manufacturers that produce, sell or distribute the prohibited product shall recall the product and reimburse the retailer or any other purchaser for the product.
3. If the Department Public Health and Human Services (DPHHS) receives a complaint, DPHHS and local health departments will work together to investigate and determine if a violation has occurred.
4. DPHHS is unable to determine a fiscal impact due to the unknown numbers of manufactures that produce, sell or distribute a product that contains Bisphenol A.
